

Sinclair Broadcasting is proving that the many concerns expressed all through the process of changing FCC rules about consolidating media ownership are valid, valid, valid!

Up to now I've only been vaguely concerned that all the radio stations are playing tapes & we have no local live broadcasts. Now this. Sinclair broadcasting forcing their stations to air this anti-Kerry documentary right before the election actually makes me fearful. How can Sinclair refuse Kerry ads and decide itself to run anti-Kerry pieces? Who's paying for them to be on the airwaves? Who's "minding the store," who's watching out for the majority of us? Does the FCC work for corporate America or for all of America?

Please take action now to stop this kind of thing from happening. Please work for all of us. Thank you.
